Dear PSC:

I think you are making a big mistake in taking away the freedoms and civil liberties of hard working and ambitious Americans. I personally am a student at the Darla Moore School of Business and frequent Uber regularly to ensure a safe ride. This is an infringement on our constitutional rights and a shame in the eyes of capitalism and a competitive market enterprise system.

I trust you will make the right decision and repeal your "cease and desist" against Uber.

Best,

Will Grainger

Uber provides a safe and outstanding service to the communities they serve. Taxis are unreliable, dirty, and inconvenient.

Uber provides a service that detracts their clients from drinking and driving. Communities that have Uber are safer because they take drunk drivers off the roadway.

Do not take uber away from your state.

The service was flawless and so much more convenient while traveling in Charleston.
I truly believe it is a mistake to cease and desist Uber and hope that the ruling is reversed.

Please let UBER operate as a ride share service. I have kept potential drunk drivers off the road by driving as an UBER partner.

Philadelphia, Chicago, LA and many more cities have seen over 10% decreases in DUI's over the course of a year after allowing ride share services to get established.

Thank you.

Subject: Uber

To whom it may concern:

I used Uber just a few months ago for the first time. It was amazing. My friend and I rode together from my home in North Charleston to downtown Charleston for ~\$35 each way. That's roughly \$70 round trip, where as other taxi services I've used in the area cost me nearly \$70 just for a one way ride! That's well over \$100 round trip!

Some of my co-workers rely on Uber for transportation now, as they don't have cars themselves. Before Uber, getting to work was a burden for them. Either they had to get up extra early to walk, or forfeit the previous day's pay just to get to work and make money for the next day's transportation.

Not only does Uber provide a much more reasonably priced option, it also provides safety.

Neither one of us ever feel uncomfortable or as if our safety was being compromised in either ride. The drivers keep their attention on the road and don't speed or weave in and out of traffic. They are even nice enough to keep a decent conversation with us for the ride.

I feel taking Uber from South Carolina would be a huge disappointment. Please reconsider.

Thank you,
Alexis Flores-Beshures
